RE: **Confidentiality Issue for Utility Pole Reinforcement**
GLF File No. 1266-001 Serial No. 09/858,402

Dear Examiners:

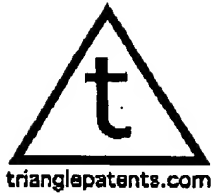

Thank you for speaking with me by telephone yesterday regarding the breach of security and USPTO's release of confidential information about the status of this application, including the recent Office Action. As I mentioned, I spoke with the USPTO Solicitors Office; they instructed me to make this request.

Please note this new security in the file, including electronically, so that no USPTO employee is authorized and has been warned not to communicate by telephone with anyone regarding this application.

This is a request that the US Patent & Trademark only communicate with JiNan Glasgow, the attorney of record, for patent application Serial No. 09/858,402, *upon written request on the firm's letterhead*. It has come to our attention that there has been a breach of security, i.e. information was released by the USPTO to an unauthorized third party regarding a non-final Office Action of June 29, 2002 and application status.

Sincerely,

JiNan Glasgow
Attorney of Record for Applicant
